TABLE OF CONTENTS

ABOUT COMPANY

Falconet Internet Pvt Ltd is a leading Internet Service Provider (ISP) based in Haryana, India, specializing in high-speed internet solutions, customer support, and infrastructure management services. Our company is committed to offering robust and reliable internet services across various states, including Haryana, Punjab, Himachal Pradesh, and Delhi.

As a trusted partner to major telecom companies like Airtel, Jio, and BSNL, Falconet Internet provides a comprehensive range of services tailored to meet the unique needs of both individual consumers and large-scale organizations.

In addition to traditional internet services, we offer SD-WAN solutions that help businesses optimize their network performance, improve security, and reduce costs through a software-defined approach to wide-area networking.

ABOUT COMPANY

Our DataWall platform provides innovative solutions for businesses to manage and optimize their data infrastructure. DataWall enables enterprises to scale securely and efficiently, offering state-of-the-art management tools and services for today's data-driven businesses. Along with network and data management, DataWall now offers comprehensive Hosting Services, Website Designing, VPS Hosting, and Dedicated Server Hosting for businesses looking to establish and scale their online presence.

We also offer specialized solutions like ISP Bandwidth Management, Ticketing and CRM, and NMS (Network Management System) solutions to help businesses manage their network, customer interactions, and IT services seamlessly.

Our mission is to enhance connectivity and support businesses in their digital transformation journey by offering secure, fast, and scalable internet solutions.

WELCOME MESSAGE
